**W**hen the theme of design is elegance, the accent is surely going to be on spaciousness and serenity.

This is what interior designers Milan & Mehul Manek of Milan Manek & Associates set out to achieve in designing the 1,092 sq. ft. home for Nayant Manek in central Mumbai. They began with moving the windows out to increase the area and used a colour palette that spells peace and serenity.

In the process, not only did the duo stick to the theme, but also stayed true to its motto of "providing well-finished projects with proper planning and long-lasting design."
